PROFESSIONAL SUMMARY

I'm a third-year software engineering student at Antonine University, graduating in 2026. My expertise lies in web development. I'm passionate about building efficient, scalable applications and have a strong grasp of both frontend and backend technologies. I'm eager to contribute to innovative projects and collaborate with talented teams in the field of software engineering.

EDUCATION

Bachelor of Computer and Communication Engineering

2021 – Present

Concentration: Software Engineering and Networks

ANTONINE UNIVERSITY, Baabda

EXPERIENCE

Private Teacher (Freelance)

2021 - present

- Provide individualized support and resources to students experiencing difficulties in their studies
- Create an engaging and supportive learning environment that encourages active participation and collaboration

University Project

- Developed a web application using HTML, CSS, and JavaScript for the frontend and implementation of backend functionality using Node.js with Express framework.
- Designed the project following the MVC (Model-View-Controller) architecture for better organization and maintainability.
- Collaborated with team members to ensure project requirements were met and deadlines were achieved.

SKILLS

HTML/CSS JavaScript Networking react JS Express JS Node JS MySQL MongoDB
C++ Java JavaFx
